TO THE TRADE

Crichton, Ala.
Oct. 1, 1928.

Up to last season, I catered almost exclusively to the trade of lining out stock, but the demand for our specimen plants were so great last season that we are now offering both lining out size and specimen plants in large quantity. We are growing our specimen plants in separate field which soil is such that we can dig with solid ball of earth. We have much larger quantity in more varieties and grades than last year and solicit your orders in carload lots or in less quantities.

Following my original policy of offering larger size lining out stock, you will not find many plants of less than six inches, but we have thousands of smaller sizes than listed and I shall be pleased to quote on them to those who want bedding out plants or potting them. We also will have thousands of rooted cuttings and grafts to offer in the spring, but expect to issue a separate list for them later in season. Prices of our lining out stock are lowered considerably but the quality is higher than ever.

I keenly appreciate your business and good will which I value far more than monetary rewards and solicit your further patronage and friendship.

Yours very truly,
T. KIYONO.

TERMS AND CONDITIONS OF SALES

Prices. 5, 50 and 500 of same variety and size at 10, 100 and 1000 rates respectively. Where less than 25 of a kind ordered for plants quoted at 100 rate, please add 25%.

Terms of Payment—Cash with orders, from unknown people or those who prefer to earn discount. When cash with order, we make the discount of 3% and boxing free, which means total earning of about 10%.

For charge accounts, our term is 60 days net, boxing at cost. New accounts opened only upon receipt of trade references, allowing time for investigation.

Transportation. Please state whether you want your shipments by parcel post, express or freight. When no instructions are given, we will use our best judgment in selecting best method of shipments. We make no charge for delivery to railroad station but our responsibility ceases when goods are turned over to carrier and risk and cost of transportation belong to purchaser.

Shipping Season. With ordinary weather conditions, from first of November to fifteenth of April.

Claim. If we made any mistakes or any reason to complain, please write immediately upon receipt of goods and we will be pleased to adjust the matter.

Condition of Sales. We accept all orders upon condition that they shall be void should any injury befall stock from causes over which we have no control.

Lining Out Coniferous Evergreens	1-7
Lining Out Broad-Leaved Evergreens	8-18
Palms and Miscellaneous	19-20
Specimen Coniferous Evergreens	21-25
Specimen Broad-Leaved Evergreens	26-32

Juniperus C. Pfitzeriana 6-8 inches	Baker's Arborvitea 8-10 inches	Berckman's Golden 10-12 inches

LINING OUT CONIFEROUS EVERGREENS

Plants under this heading will be dug bare roots, saving almost entire root system. Puddled immediately so that you will receive plants with original moisture on roots.

Cedrus Deodara. The most beautiful stately specimen trees for the milder parts of United States. One year old seedlings should be planted in beds under shade but

two-year transplanted stock offered here are ready to go out in open field.

	Per 100	Per 1000
2-4 inch, from seed beds	$ 4.00	$ 30.00
4-6 inch, from seed beds	6.00	50.00
6-8 inch, from seed beds	8.00	70.00
8-10 inch, two-year transplanted	15.00	
10-15 inch, two-year transplanted	25.00	

Chamaecyparis Lawsoniana Alumi (Blue Lawson Cypress). Very blue lawson cypress of compact growth similar to Arborvitea in outline. Unlike from most of lawson cypress, this kind will transplant very easy. Our plants are from cuttings of extra blue good specimen.

6-8 inch, from cutting, once transplanted	12.00
8-10 in. from cuttings, once transplanted	17.00

Cupressus Arizonica (Arizona Cypress). Very fast growing bluish cypress which are valued in dryer parts of country, but not so desirable in more humid climate where lower branches turn brown.

4-6 inch, from seed beds	2.50
6-8 inch, from seed beds	4.00

Cupressus Sempervirens Pyramidalis (Italian Cypress). Well known very slender columnar tree of very striking appearance. We offer this year only those from cuttings, insuring absolute uniformity in shape.

10-12 inch, two-year cuttings, once transplanted	15.00
12-18 inch, two-year cuttings, once transplanted	20.00

Juniperus Chinensis Pfitzeriana. One of the best low growing Juniper of wide adaptability known too well for further description.

4-6 inch cuttings, once transplanted	12.00	110.00
6-8 inch cuttings, once transplanted	17.00	160.00
8-10 inch, 2-year, twice transplanted	25.00	
10-15 inch, 2-year, twice transplanted	30.00	

	Per 100	Per 1000
Juniperus Communis (English Juniper) What we offer this year are grown from cuttings taken from type of English Juniper of very compact columnar habit.		
4-6 inch, cuttings, once transplanted	6.00	
6-8 inch, cuttings, once transplanted	10.00	
Juniperus Communis Depressa (Canadian Juniper). Semi-elect juniper of wide adaptability. There are many types but we offer plants grown by cuttings from specimen of real merit.		
6-10 inch, 2-year cuttings, once transplanted	12.00	
10-15 inch, 2-year cuttings, once transplanted	17.00	
Juniperus Excelsa Stricata (Spiny Greek Juniper). Slow growing compact Juniper valued highly for formal and foundation plantings, doing well both in south and north. All our plants are grown from cuttings from selected plants.		
3-5 inch, cuttings, once transplanted	10.00	90.00
3-5 inch, 2-year	15.00	120.00
Juniperus Japonica. Trailing Juniper with bluish scale-like foliage, doing well both in north and south.		
6-8 inch, once transplanted	15.00	
Juniperus Japonica Sylvestris. Similar to Juniperus Chinensis but more irregular in outline with light green foliage of both types common to Junipers. Very hardy and specially valuable for the South.		
4-6 inch, cuttings, once transplanted	18.00	
6-8 inch, cuttings, once transplanted	22.50	
Juniperus Sabina (Savin Juniper). Slow growing semi-elect plants with dark green foliage which will not turn brown in winter. Stand city conditions well.		
6-8 inch, two-year cuttings, twice transplanted	20.00	

	Per 100	Per 1000
Pinus Densiflora (Japanese Red Pine.) Very attractive and indispensable tree for Japanese landscapes gardening with artistic shape.		
6-8 inch, 2-year, beds	3.00	20.00
8-10 inch, 2-year, beds	4.00	30.00
Podocarpus Chinesis (Japanese Yew). Dark green leaves of 1/3 inch by two inches long, with upright stems which can be pruned to any shape desired. They do well in full sun or very dark shade where nothing else will grow and extremely valuable for latter use. Only objection to this variety is of its slow growth, like many other Yews, but this point becomes its virtue a few years after planted against buildings.		
1-3 inch, from beds	5.00	40.00
4-6 inch, 2-year, transplanted	8.00	70.00
6-8 inch, 2-year, transplanted	12.00	110.00
8-10 inch, 2-year, transplanted	17.00	150.00
Retinospora Plumosa (Green Japanese Cypress. This and two following Retinospora are hardy all along the Atlantic Coast, and Gulf States. Rather irregular outline of Retinospora are pleasing in contrast with stiff outline of Arborvitea. All our Retinosporas are from cuttings.		
6-8 inch, once transplanted	10.00	80.00
8-10 inch, once transplanted	12.00	100.00
10-12 inch, once transplanted	17.00	150.00
Retinospora Plumosa Aurea (Yellow Japan Cypress). Similar to above but new growth is decided yellow.		
4-6 inch, once transplanted	10.00	80.00
6-8 inch, once transplanted	12.00	100.00
8-10 inch, once transplanted	17.00	150.00
Retinospora Squarossa Veitchi. Very pleasing silvery blue foliage of this plant makes very attractive with other dark green foliage plants.		
4-6 inch, cuttings, transplanted	10.00	80.00
6-8 inch, cuttings, once transplanted	12.00	100.00

Cedrus Deodara 6-8 inch	Retinospora Plumosa 6-8 inch	Ligustrum Lucidum 6-10 inch	Cherry Laurel 10 inch up

Thuya Orientalis (Chinese Arborvitea). These are from seed and not all alike but majority of them makes pyramidal growth. Our 8-12 inch size two-year stock are suitable for under-stock, in grafting more valuable kinds.

	Per 100	Per 1000
4-6 inch, beds	2.00	15.00
6-8 inch, 2-year, from seed beds	3.00	25.00
8-12 inch, 2-year, from seed beds	5.00	40.00
18-24 inch, selected field grown	25.00	
2-3 feet, selected field grown	35.00	

Thuya Orientalis Aurea Nana (Berckman's Golden). All our cuttings are from true dwarf Berckman's Golden, and absolutely true to type. This is one of our specialty and grow thousands of them annually but never been able to supply

	Per 100	Per 1000
the demand. What we are offering here are sturdy plants with stem of pencil size or larger, except 5-8 inch plants.		
5-8 inch, cuttings, once transplanted	17.00	150.00
8-10 inch, twice transplanted, field grown	30.00	280.00
10-12 inch, twice transplanted, field grown	40.00	360.00
12-15 inch, twice transplanted, field grown	50.00	450.00
Thuya Orientalis Baker. Pleasing soft green of pyramidal growth, retaining its color summer and winter. The best pyramidal shaped Oriental Arborvitea. We are growing them in full sun this year and these are heavy plants.		
6-8 inch, cuttings, once transplanted	12.00	110.00
8-10 inch, twice transplanted, 2 years	17.00	150.00
10-15 inch, twice transplanted, 2 years	22.50	200.00
Thuya Orientalis Beverleyensis (Golden Column Arborvitea). Stately columnar growth of deep golden color, getting more compact as they get older. Similar to Aurea Conspicua but decided improvement.		
5-7 inch, cuttings, once transplanted	20.00	
7-9 inch, cuttings, once transplanted	25.00	
Thuya Orientalis Bonita. Very compact slow growing Arborvitea of most symmetrical shape. Well adapted to wide range of country and very popular.		
4-6 inch, cuttings, once transplanted	12.00	
6-8 inch, cuttings, once transplanted	18.00	
Thuya Orientalis Compacta. Compact growing Chinese Arborvitea of more grove shape but since these are seedlings some will not come true to type.		
2-4 inch, from seed beds	2.00	15.00
4-6 inch, from seed beds	3.00	20.00
6-8 inch, two years from beds	5.00	40.00
12-18 inch, twice transplanted, selected field grown	35.00	

	Per 100	Per 1000
Thuya Orientalis Meldensis. Soft blue-green foliage of fairly fast grower but similar in shape and outline to Berckman's Golden.		
4-6 inch, cuttings, once transplanted	14.00	
6-8 inch, cuttings, once transplanted	17.00	
Thuya Orientalis Ramsey's Hybrid. A fast growing Arborvitea, similar in outline to cypress with thread like foliage. It will stand the heat and drouth well and very valuable in the South.		
5-7 inch, cuttings, once transplanted	17.50	
7-9 inch, cuttings, once transplanted	25.00	
Thuya Orientalis Rosedale. This soft, bluish Arborvitea is subject to the attack of aphis, but wherever they do well, this is one of the most beautiful arborvitea.		
4-6 inch, cuttings, once transplanted	5.00	40.00
6-10 inch, cuttings, once transplanted	8.00	70.00
Thuya Orientalis Texana Glauca. In outline of growth and color, this is similar to Arizona cypress, making strong center shoot and quick grower. Where Arizona cypress does not do well, this will take its place and really better because this will not grow as large as Arizona cypress and transplant far better.		
4-6 inch, cuttings, once transplanted	10.00	90.00

Ligustrum L. Repanda 12-18 inches	Ligustrum L. Compactum 12-18 inches	Ligustrum L. Pyramidalis 12-18 inches

LINING OUT BROAD-LEAVED EVERGREENS

Plants under this heading will be lifted with almost entire root system intact. Puddled immediately in thick mud and packed in moss, except where noted B. & B., which means balled and burlapped.

	Per 100	Per 1000
Abelia Grandiflora. Pinkish white flowers bloom all summer long, with small glossy evergreen leaves, makes this shrub one of the most desirable specimen or hedge plants. The demand for this plant is growing larger every year.		
6-8 inch, cuttings, once transplanted field grown	$ 8.00	$ 75.00
8-12 inch, cuttings, once transplanted, field grown	10.00	90.00
12-18 inch, cuttings, once transplanted field grown	15.00	130.00

	Per 100	Per 1000
Azalea Indica. Single flowering, large growing kinds which are hardy on coast of North Carolina. We have most of commercial sort, in White, Light Pink, Dark Pink, Lilac-pink, Deep Red, Orange Red and Variegated.		
6-8 inch, cuttings, twice transplanted B&B	35.00	
8-10 inch, cuttings, twice transplanted, B&B	50.00	
Azalea Hinodegiri		
4-6 inch, B&B	40.00	
6-8 inch, B&B	50.00	
Buxus Japonica (Japanese Box). This is far better substitute for old time Boxwood (Buxus sempervirens) which do not do well in lower south and dreadfully slow grower. This Japanese Box will withstand full sun on Gulf Coast, making three times more growth, with more roundish lighter green colored leaves. Makes splendid trimmed specimen but untrimmed, they will make ideal plants for foundation planting.		
4-6 inch, cuttings, once transplanted	7.00	
6-8 inch, cuttings, once transplanted	10.00	
Camellia Japonica. Waxy leaf, mid-winter flowering Camellia need no description. We grow only double flowering choice kinds which we offer them under color of White, Pink, Red and Variegated. All our plants were grown from cuttings and no seedlings offered. For larger plants, see under Specimen.		
12-15 inch, B&B	50.00	
15-18 inch, B&B	75.00	
Camellia Sasanqua. Similar to Camellia Japonica but more of shrubbery effect, growing faster, freer from scale injury, and bloom in October and November. We offer one named variety, Mine-noyoki, which is double snow white flowers similar to carnation. Seedlings are all single flower, similar to flower of cherokee rose,		

	Per 100	Per 1000
ranging in color from white to red and intermediate.		
Prices of **Mine-no-yuki:**		
3-5 inch, from cuttings, beds	12.00	100.00
6-8 inch, once transplanted	25.00	225.00
8-12 inch, once transplanted	35.00	325.00
Camellia Sasanqua Seedlings		
4-6 inch, from beds	10.00	90.00
8-10 inch, transplanted, field grown	35.00	
10-15 inch, transplanted, field grown	35.00	
Camellia Thea (Tea Plant). This compact growing evergreen shrub is not known widely but has many desirable qualities. Sweet scented flowers in late fall.		
6-8 inch, from seed beds	4.00	35.00
8-10 inch, from seed beds	6.00	50.00
10-15 inch, from seed beds	8.00	70.00
Cotoneaster Panosa. Only a few Cononeaster do well in south, but this is one of it. A beautiful shrub with slender branches clothed with small green leaves which are silvery white beneath.		
4-8 inch, from beds	5.00	
8-10 inch, from beds	8.00	
10-15 inch, from beds	12.00	
Elaeagnus Pungen Variegata (Variegated Russian Olive). Hardy compact growing shrub succeeding in wide range of country. Beautiful variegation will not be affected by sun nor winter and quite valuable plants. We can furnish in both gold and silver variegated.		
4-6 inch, once transplanted	12.00	
6-8 inch, once transplanted	17.00	
Euonymus Carrieri. Low growing shrub with shiny green leaves turning bronze during winter. Extremely free from insects and diseases and ideal plants for border, doing well under the sun or in shade.		

	Per 100	Per 1000
12-15 inch, cuttings, once transplanted	8.00	70.00
15-18 inch, bushy, cuttings, once transplanted	15.00	120.00

Feijoa Sellowiana (Pineapple Guava). Compact growing medium size shrub with green leaves with silverly white underneath. Native of South America and can stand the temperature of about 8 degrees above. Very peculiar and beautiful purplish flowers add so much more charm to this plant.

6-8 inch, once transplanted	8.00	
8-10 inch, once transplanted	12.00	

Gardenia Florida. The demand for this sweet scented flower is growing all the time.

4-6 inch, strong cuttings	5.00	
6-8 inch, once transplanted	8.00	

Gardenia Radicans (Dwarf Cape Jasmine). Miniature Cape Jasmine with leaves about 1/4 inch wide and one inch long. Pure white waxy flowers are identical with larger Cape Jasmine but only the size of one dollar silver. Growth is decidedly spreading, rarely getting taller than one foot high and ideal for planting in front of border or as pot plants. Our plants have white variegated leaves and even without flowers they are beautiful foliage plants.

Rooted cuttings	3.00	25.00
6-8 inch, once transplanted	10.00	

Ilex Crenata (Ink Berry). Small leaved dwarf shrub withstanding the winter of New Jersey and quite at home on Gulf Coast. Berry is black but plants are very hardy and attractive.

4-6 inch, cuttings, once transplanted	8.00	
6-8 inch, once transplanted	12.00	

Ilex Rotandifolia (Round Leaved Holly). Similar to above but with leaves of darker green which are larger and round, somewhat like boxwood. One of

	Per 100	Per 1000
the best plants for foundation planting, being semi-dwarf grower.		
4-6 inch, cuttings, once transplanted	12.00	
6-10 inch, cuttings, once transplanted	15.00	
Ilex Vomitoria (Yaupon). Native of southern United States with small bright red berries, succeeding in wide range of country.		
4-6 inch, from seed beds	4.00	
6-8 inch, from seed beds	6.00	
Jasiminum Primullinum (Primrose Jasimine). Graceful half elect evergreen with yellow Jasimine flowers.		
10-15 inch, cuttings, once transplanted	7.00	
15-18 inch, cuttings, once transplanted	10.00	
Ligustrum Japonicum. Fast growing evergreen Ligustrum of small size trees. Can be trained into bush or tree forms and useful as screen planting.		
4-6 inch from seed beds	1.50	10.00
6-8 inch, from seed beds	2.50	20.00
8-12 inch, from seed beds	3.50	30.00
18-24 inch, once transplanted, field grown	20.00	
2-3 feet, once transplanted, field grown	25.00	
Ligustrum Ciliatum Variegatum (Ligustrum Nepalence Variegatum). Compact growing shrub with small roundish leaves which are faintly blotched. Good addition to our Ligustrum.		
Rooted Cuttings	3.00	25.00
4-6 inch, cuttings, once transplanted	6.00	50.00
6-10 inch, cuttings, once transplanted	8.00	70.00
10-15 inch, twice transplanted, field grown	15.00	130.00
Ligustrum Henrri. Dark green glossy leaves are no larger than your finger nail and will make ideal sheared plants. Not so well known yet but have wide adaptability.		
Rooted cuttings	3.00	25.00
4-6 inch, cuttings, once transplanted	6.00	50.00
6-10 inch, cuttings, once transplanted	8.00	70.00

	Per 100	Per 1000
Ligustrum Japonicum Marginatum Aureum (Golden Japan Privet). Large yellowish green leaves are margined with still deeper yellow and fast grower. Makes beautiful combination with other Ligustrum. All our plants are grown by grafting on other privet roots.		
No. 1 grafts	8.00	
8-12 inch, grafted, field grown, bushy	20.00	
12-18 inch, grafted, field grown, bushy	25.00	

Young Ligustrum and Nandina

Ligustrum Lucidum Compactum (Wax-leaf Privet). Under this name many plants are offered, including seedlings which do not come true, but what we are offering are dwarf growing shrubs with very thick weavy leaves of extremely glossy surface. One of the most satisfactory plants for general planting, being free from attack of insects and diseases and fast grower, doing well in most adverse conditions.

	Per 100	Per 1000
Our plants are well pinched back this year that you can use even 12-18 inch size for landscape planting and can ball 12-18 inch or 18-24 inch size at 15c extra. Growing on our sandy loam, they have plenty fiberous roots and transplant well with puddled roots.		
Strong rooted cuttings	3.00	25.00
4-6 inch, cuttings, once transplanted	6.00	50.00
6-8 inch, cuttings, once transplanted	8.00	70.00
8-12 inch, cuttings, once transplanted	10.00	90.00
12-18 inch, twice transplanted, field grown, bushy	20.00	180.00
18-24 inch, twice transplanted, field grown, bushy	30.00	280.00

Ligustrum Lucidum Pyramidalis (Upright Wax-Leaf Privet). Leaves are rather pointed and not quite as thick as Lucidum, and the growth is decidedly upright. For corner of house, between windows and as background planting, this is indispensable.

Prices are same as Wax-Leaf Privet.

Ligustrum Lucidum Repanda (Crinkle Leaved Privet). Shiny narrow leaves are crinkled and growth is upright, making quite distinguished looking plants.

Prices are same as Wax-Leaf Privet.

Ligustrum Nepalense (Nepal Privet). A little smaller leaves than Lucidum with graceful curving branches.

Prices are same as Ligustrum Lucidum Compactum.

Ligustrum Ovalifolium Aureum. (Golden California Privet). Golden variegated leaves of this almost evergreen shrub is quite attractive among other evergreens.

5-7 inch, cuttings, once transplanted	7.50	60.00

Loquat (Japan Plum). Large size evergreen leaves makes this plant ornamental as

	Per 100	Per 1000
well as useful on account of delicious fruit it bears. Quite a useful plant.		
4-6 inch, from seed beds	5.00	
6-8 inch, from seed beds	7.00	
Laurus Officinale (English Laurel). Shrub of medium height with large waxy leaves. Hardy in Tennseee and do splendidly in Gulf Coast. One of the most valuable broad leaved evergreens for almost entire south.		
6-8 inch, cuttings, once transplanted	12.00	
8-10 inch, cuttings, once transplanted	15.00	
Louruscerasus Caroliniana (Cherry Laurel). Our Native evergreen shrub or small trees, remarkably free from attack of insects or diseases. Makes very nice specimen or hedge plant. Two last grades offered here are bushy, field grown plants, and very good value at prices we list them.		
6-8 inch, from seed beds	3.00	25.00
8-10 inch, from seed beds	5.00	40.00
8-10 inch, 2-year transplanted	7.00	60.00
10-inch up, 2-year transplanted	10.00	80.00
12-18 inch, transplanted, field grown	15.00	100.00
18-24 inch, transplanted, field grown	25.00	150.00
Magnolia Fuscata (Banana Shrub). Noted by yellowish white flowers of banana-like fragrance. Compact growing shrub well adapted to wide territory in the south.		
4-8 inch, cuttings, once transplanted	15.00	
8-10 inch, cuttings, once transplanted	20.00	
10-12 inch, cuttings, two and three years	25.00	
12-15 inch, cuttings, two and three years	35.00	
Magnolia Grandiflora. Well known southern Magnolia of our native forest. One of grandest trees.		
3-5 inch, from seed beds	6.00	
5-8 inch, from seed beds	8.00	
Nandina Domestica (Japanese Nandina). Nandina is appreciated more highly in		

	Per 100	Per 1000
winter than any other time, when in its winter dress of red leaves and clusters of scarlet berries. This is a great advantage over many plants which are pretty in summer but may not look good in winter when we sell our plants, but Nandina in full dress will sell at sight. No wonder the demand exceeded supply and those who stock up with young Nandina will reap rich harvest. Measurement of our Nandina this year is taken by natural height of plants, including leaves which is general custom of grading Nandina by almost all Nurserymen of this country.		
2-4 inch, once transplanted, seedlings	8.00	70.00
4-6 inch, once transplanted, seedlings	10.00	80.00
6-8 inch, once transplanted, seedlings	15.00	125.00
8-12 inch, once transplanted, seedlings	25.00	225.00
Olea Fragrance (Sweet Olive). Well known winter flowering evergreen very much sought after.		
6-8 inch, cuttings, once transplanted	25.00	
8-10 inch, cuttings, once transplanted	30.00	
10-12 inch, cuttings, once transplanted	45.00	
12-15 inch, cuttings, once transplanted	60.00	
Photinia Glabra. Evergreen Photinia with clusters of small white flowers which are not showy but the new growth of this plant is bright red and quite attractive in other evergreens during growing season. Should be pruned often to keep plants bushy and encourage new growth. Our cuttings are from best specimen with deepest red new growth.		
6-8 inch, cuttings, once transplanted	20.00	
8-10 inch, cuttings, once transplanted	25.00	
10-12 inch, cuttings, once transplanted	35.00	
Pittosporum Tobira. Well known compact growing evergreen, withstanding many hardships. Wherever it is not cold enough to winter kill, one of the best evergreens.		

	Per 100	Per 1000
Rooted cuttings	4.00	35.00
6-8 inch, cuttings, once transplanted	8.00	70.00

Pyracantha Coccinea Lalandi (Evergreen Hawthorn). Desirable thorny evergreen with clusters of orange colored berries which color up late summer and hang on a long time.

8-12 inch, cuttings, once transplanted	12.00	
12-18 inch, cuttings once transplanted	17.00	

Pyracantha Angustifolia. Narrow leaf orange colored berry of rather loose grower not so desirable as other Pyrachantha.

Pyracantha Formosana. Compact and fast growing Pyracantha with small holly like leaves and red berries. A new kind and one of the best.

Pyracantha Yunnanensis. Spreading kind with broader smooth leaves and coral red berries. Not so susceptible to attack of scale insects. All prices of Pyracantha are the same.

Quercus Acuta (Japanese Live Oak). Hardy evergreen oak of Japan, used largely for ornamental purposes,, having rich green foliage.

Quercus Cuspidata. This is another Japanese evergreen oak with smaller, thick leaves and used more largely for garden and hedge works. The acorn of this oak is edible.

Quercus Glabra. Another hardy Japanese evergreen oak very similar to Q. Acuta. New growth is pretty brownish color. Prices of all three Japanese live oaks:

4-6 inch, from seed beds	5.00	40.00
6-8 inch, from seed beds	7.50	60.00
8-12 inch, from seed beds	10.00	90.00

Quercus Laurifolia Darlingtonia. (Darlington Laurel Oak). Large growing live

	Per 100	Per 1000
oak with oblong, dark green leaves suitable for street and lawn planting.		
6-8 inch, from seed beds	4.00	
8-12 inch, from seed beds	7.00	
Raphiolepis Japonica. Similar to the following variety but much faster growth with more lose branch formation.		
6-8 inch, 2-year transplanted	6.00	
8-10 inch, 2-year transplanted	8.00	
Raphiolepis Indica (Indian Hawthorn). Slow growing evergreen with roundish, thick leaves. Pinkish white flowers followed by purple berries. One of newer but coming evergreen.		
2-4 inch, from seed beds	3.00	
6-8 inch, 2-year, transplanted	8.00	
8-10 inch, 2-year, transplanted	10.00	
Serissa Foetida Variegata. A low growing spreading shrub with tiny evergreen leaves of yellow margin. Pretty trumpet shaped white flowers. Very desirable as border or where plants of less than two feet is wanted.		
Rooted cuttings	3.00	25.00
3-5 inch, cuttings, once transplanted	5.00	
8-10 inch, cuttings, once transplanted well branched	12.00	
Viburnum Odoratissimum. Fast growing medium size shrub with large laurel like leaves, doing well in almost any location in the south. White good smelling flowers.		
8-10 inch, cuttings, once transplanted	10.00	
10-12 inch, cuttings, once transplanted	15.00	
Viburnum Tinus (Laurestinus). Compact growing rather small shrub with small shiny dark green leaves. Bloom pinkish-white flowers during winter months.		
6-8 inch, cuttings, once transplanted	10.00	
8-10 inch, cuttings, once transplanted	15.00	
Viburnum Suspensum. This is intermediate in size of plants and leaves of two preceeding varieties and quite hardy.		
6-8 inch, cuttings, once transplanted	15.00	

PALMS AND MISCELLANEOUS

	Per 100	Per 1000
Chamaerops Excelsa (Trachycarpus). Very hardy, fan-shaped leave palms with slender trunk, well adapted for street plantings. All three palms we are listing can stand much more cold weather than Washingtonia and Phoenix palms.		
6-8 inch, from seed beds	6.00	50.00
8-10 inch, two-year-old	10.00	
Cocos Australis. Recurved leaves are glaucous and very graceful. This is rather slow grower but never get out of bound and ideal for lawn specimen. This palm is destined to replace most of Phoenix and Washingtonia palms on the Gulf Coast.		
6-8 inch, from seed beds	8.00	70.00
8-10 inch, two-year-old	10.00	90.00
Latania Borbonica. Fast growing fan shaped pretty palm well adapted for pot growing or shady situation.		
10-12 inch, from seed beds, 2-year-old	10.00	
Sabal Palmetto (Cabbage Palmetto). Hardy native palm of great worth where hardiness is first consideration. Succeeds as far north as Cape Hatteras on Atlantic.		
10-15 inch, three-year-old	5.00	40.00
Aleuxrites Triloba (Tung Oil Tree). Rapid growing small tree with large leaves about size of small hat. Thousands of acres of this tree was planted in Florida for commercial production of Tunk Oil. Flowers of this plant are quite attractive that we are offering these as ornamental shade trees.		
3-4 feet, once transplanted	20.00	
4-5 feet, once transplanted	30.00	
Amaryllis Vitata. Hybrid of all sorts ranging from almost white to deepest red and intermediate colors. Seed was produced by one of foremost Amaryllis specialists.		

	Per 100	Per 1000
Our plants were transplanted once, and grown with plenty space, under lath house.		
3-year-old bulbs	20.00	180.00
Philostachis Aurea (Gigant Japanese Bamboo). Large growing hardy bamboo, well adapted for this part of country. Make fishing poles and ideal for large screen.		
Under-ground canes	15.00	
Oppiopogan Japonicum (Dragon's Beard). A very low grass like evergreen, doing well either in very dark shade or in full sun. Very valuable as border plants with spikes of purple flowers.		
Small Division	2.00	15.00
Large Division	4.00	30.00
Ginkgo Biloba (Maidenhair Tree). A noble pre-historic tree of gigantic proportion, withstanding city conditions well; thus making ideal avenue trees. Autumnal foliage is specially attractive.		
4-6 inch, one-year, seedlings	5.00	40.00
8-12 inch, two-year-old	8.00	
Crape Myrtle, Watermelon Red, Pink and Purple.

Hypericum Moserianum		
12-18 inch, bare roots	25.00	
18-24 inch, bare roots	30.00	

Block of Berckman's Golden Arborvitea

SPECIMEN CONIFEROUS EVERGREENS

Under this heading we offer more than two or three times transplanted, field grown Conifers of symmetrical shape, many of them being staked, sheared or pinched. At prices quoted, all of them are balled and burlapped. On account of frequent transplanting and nature of our soil, however, all our plants have abundant fiberous roots and transplant well without being balled, for sizes of less than 2-3 feet, and should they be wanted without ball, we deduct 25c each on 2-3 feet and 15c each for less than 2 feet size.

For carload orders, where we can put in balled and burlapped plants without boxing them, or when you send your truck to our nursery grounds so that we do not have to crate them, we will dedubt 15% from prices of both Coniferous and Broad-leaved Specimen plants, but this discount will not apply on lining out sizes quoted separately.

Balled and Burlapped Vis. Bare Roots Puddled

If you have to entrust your digging to careless help, without doubt, B&B is safer way of handling plants than bare roots. On the other hand, we can save much more root system when we dig with bare roots than balling, and

handled carefully, there is no danger of roots drying out before packing.

Bare root stock carefully dug, packed and shipped by express often do much better and far cheaper than B&B stock shipped by freight in less than carload lots. Whether B&B or bare roots, we will deliver our plants to you with original moisture on their roots.

SPECIMEN BROAD-LEAVED EVERGREENS

Plants listed under this heading are all more than twice transplanted, field grown, bushy and compact specimen, most of them pinched back several times. Many of them will transplant well without ball, especially when they are slightly cut back, and for bare rooted plants we make reduction of 25c each for 2-3 feet and 15c each for less than 2 feet.

As mentioned under heading of "Specimen Conifers," we deduct 15% on B&B plants, when you order in carload lot or send your truck to our grounds.
